

About us

DataTrak Head Office is based in the refurbished stable block attached to a beautiful old house on a country estate in Norfolk. Our engineers, however, are located around the UK - hence our nationwide service. We also have a network of distributors based in Scotland, Canada, Africa and Spain.

Although a relatively young company, the Board and Senior Management of DataTrak can offer a wealth of experience in facilities management, software design & development, IT management and providing service to customers.

Our services include portable appliance testing, asset tracking, IT software/hardware audits and the installation of desk & cable management systems. Uniquely, as far as we are aware, DataTrak is the only Company who offer a package of carrying out risk assessments and portable appliance testing for home-based staff.

DataTrak also supply a range of products to provide a complete asset management solution.

We offer not only a range of quality services and products but also a very competitive pricing structure. Our Company policy though is simple - a total commitment to quality customer service at all levels.

That commitment is stressed by our adherence to the internationally recognized ISO 9001:2000 Quality Management Standard which emphasizes a customer focus and preventive approach to Operations Management. Today's sophisticated customers demand high quality and efficient performance. Through ISO, DataTrak ensures that we meet all statutory and regulatory requirements, support our zero accident values, manage costs and risks, achieve continuous improvement and consistently exceed customer expectations on every project.

Certificate Number: GB 11290

Safety is a core value of our company. All DataTrak people, from leadership down to everyone in the field, personally challenge the notion that injuries will occur and hold the conviction that every accident is preventable. That's why our safety performance is second to none.

NAPIT - DataTrak is a member of the National Association of Professional Inspectors & Testers (NAPIT). Our ability and workmanship are regularly assessed to ensure that we meet the high standards required by the association.

Membership Number: 6101-4615

DataTrak is a member of the British Safety Council.

Membership Number: 130921

All engineers are trained to achieve City & Guilds qualifications both in "The Inspection and Testing of Electrical Equipment" (2377/2) and "The Management of Electrical Equipment Maintenance" (2377/01)

Public Liability Insurance is £5 million.

Our Customer base straddles the whole spectrum of commerce and industry - both private and public. For a number of years DataTrak has been recognised as a leader in our field. We are proud of our past but are looking to the future.
