## Portable Appliance Testing

Please contact our sales team for the latest prices regarding PAT testing. All quoted prices are the same whether the work is conducted "in" or "out" of hours, or weekends, but assumes uninterrupted access to all equipment to be tested.

## Microwave Leakage Tests

There is no cost for this service if we are already on site carrying out portable appliance testing. Should you require a specific visit to have microwave ovens tested for radiation leakage a quotation will be supplied based on your requirements.

## Portable Appliance Testing Training Courses

Training courses can be carried out either at your premises or ours at Ryston Hall. The cost is\*:-

1-2 Persons	£195 per person
3-4 Persons	£165 per person
5+ Persons	£150 per person

\*Please note there is a minimum charge of 2 people per session.

## Portable Appliance Testing Hardware & Accessories

Ethos 9150 Portable Appliance Tester	£599 each
Ethos 9150 Certification Pack <i>(includes Calibration Certificate, Certificate of Conformity and PAT Certificate)</i>	£90 each
3-Phase Adapters <i>(16A 4-pin, 16A 5-pin, 32A 4-pin, 32A 5-pin)</i>	£40 each
PAT Labels: Green Passed	£40 per 1000
PAT Labels: Red Failed	£10 per 250
White Plastic Tuff-Tags	£40 per 1000

We also hire out PAT Test equipment. A quotation will be provided on your actual requirements.

## Full Risk Assessments for Home-Based Staff

More than 300 home-based staff	£180 per assessment
Less than 300 home-based staff	£195 per assessment

The cost is per assessment but includes all travel and accommodation within England (mainland), Scotland (mainland) and Wales. Northern Ireland, the Scottish Isles, Isle of Wight, Isle of Man and any other location outside of the UK would attract an additional cost to cover air fares, hotel costs and any unavoidable surcharges.

Portable appliance testing on any Company-owned electrical equipment used by the home-based staff at their home is included in the price provided the testing is carried out at the same time as the risk assessment. The schedule of visits is arranged in the most cost-effective and efficient way so that whenever possible at least 2 home workers per day will be assessed. Because of the geographical spread of home workers it is not always possible to do that of course, but that is what we aim to achieve. To avoid fruitless visits, all appointments are pre-arranged with the individual home worker(s).

*\*Northern Ireland and any other location outside of the UK would attract an additional cost to cover air fares, hotel costs per night and any unavoidable surcharges.*

## DSE Assessments for Home-Based Staff

The cost is £175 per assessment but includes all travel and accommodation within England (mainland), Scotland (mainland) and Wales. Northern Ireland, the Scottish Isles, Isle of Wight, Isle of Man and any other location outside of the UK would attract an additional cost to cover air fares, hotel costs and any unavoidable surcharges.

Portable appliance testing on any Company-owned electrical equipment used by the home-based staff at their home is included in the price provided the testing is carried out at the same time as the risk assessment.

The schedule of visits is arranged in the most cost-effective and efficient way so that whenever possible at least 2 home workers per day will be assessed.
